## Skills

Fluent in Java, SQL, PHP, and XHTML, I am accustomed to working in Windows, Mac OS X and Linux environments. In addition to my technical skills, I have experience interacting with customers both over the phone and face-to-face. I have demonstrated an ability to quickly learn new programs, skills and languages to get the job done and I enjoy delving into a challenging project.

## Experience

Summer 2006 – US Navy – NavAir –  
Fall 2006 NADEP Jax Jacksonville, FL

---

### Software Developer (Civilian Internship)

---

- Worked with several teams on supporting large, pre-existing legacy applications
- Participated in a transition to J2EE for a complex supply and financial workhorse application for all Naval Air Depots
- Assigned responsibility of creating a Java prototype for transitioning a large time and attendance application from COBOL

Winter 2002 – Austin Michael  
Spring 2006 Internet Solutions Gainesville, FL

---

### Server Administrator / Web Developer

---

- Deployed numerous web (Apache 2.x + Tomcat 5.x), database (MySQL), mail (Postfix), and DNS (BIND) servers on Mac OS X, Windows, and Linux
- Assisted in creation of new network design prompted by the acquisition of another ISP ensuring redundancy and minimizing down-time
- Created several bash scripts to automate complex, routine administrative tasks, reducing the time required to set up new customers from minutes to seconds while reducing the chance for error
- Created and maintained custom web applications for customers written in PHP and Java with MySQL database back-ends

Spring 2003 Carol Johnson & Co Gainesville, FL

---

### Web Developer (Contractor)

---

- Developed an online registration site for community sports leagues in PHP and MySQL
- Gained hands-on experience with the complete software development lifecycle
